When complete:

- 1. Ensure you've completed all grey highlighted fields &deleted those not related to your samples.
- 2. SAVE AS > PDF (if you have an electronic copy of your signature, you can paste this into the signature field before you save as PDF, otherwise, print and sign and scan to get a signed electronic copy).
- 3. Attach a hard copy of your signed declaration to each sample outer package (behind a <u>Sample cover sheet</u>) along with a copy of the import permit and any other required documentation as per the import permit or Dangerous Goods requirements etc.
- 4. Email a copy of the completed declaration to cargo@aad.gov.au, with the subject field labelled "[Your eCon number] sample declaration". Keep a copy for your own records in case the declaration becomes separated from your samples in transit.]

- * Check your permit directly, or the relevant Permit Quick Reference Guide available on the Permits intranet page: http://intranet.antarctica.gov.au/workspaces/science/sample-management/import-permits
- ** Samples are being imported under BICON Case Description [name] of Import Scenario Definition [exact wording from BICON case document].
